

SUBJECT: SUPPORT THE INTEGRATED CAPABILITY SYSTEM

Dear Representative,

I am writing to urge you to support a fundamental paradigm shift in American social policy. Our current "Safety Net" is failing because it treats poverty as a lack of consumption rather than a lack of **Governmental Capability**.

I demand the implementation of the **Integrated Capability System**—a lifecycle infrastructure comprising four non-negotiable pillars:

- 1) Universal CDAs at birth
- 2) Free College as a Debt Shield
- 3) Baby Bonds at age 25
- 4) A Guaranteed Income floor.

Research shows that providing wealth without solving the student debt anchor results in Net-Zero mobility. We must stop handing out parachutes to the poor while financing rockets for the rich.

For the facts go to: <https://www.occupy-2.com/>.

Sincerely,
[Your Name]
